

RESOLUTION

Tuesday June 18, 2019 Eldersburg, MD

This evening, by a unanimous vote with two members absent, the Carroll County Maryland Republican Central Committee released its official position regarding the current efforts by some commissioners to change our form of government.

“The Carroll County, MD Republican Central Committee supports our current form of five commissioner government, and does not support changing our form of government at this time.”

According to Chairman Dave Brauning Jr. , the unanimous vote opposing a change in our form of government came after a lively discussion. Brauning added, “Carroll County leads all of the surrounding counties in quality of life. We see no reason to change a winning formula.”
